SUMMARY

SAP Security Consultant with over 3+ years of experience at **IBM**, specializing in enterprise security solutions and authorization frameworks for **SAP ERP, GRC, HANA Studio, and S/4HANA Cloud**. Proven track record of securing complex landscapes and streamlining user management, notably **reducing business support hours by 75%**. Expert in converting **SOX Critical controls** from manual to fully automated, resulting in **$200K+ in annual savings** and **200+ productive hours saved**. A two-time **"Best Employee of the Quarter"** recognized for excellence in system administration, security auditing, and cross-functional collaboration.

WORK EXPERIENCE

SAP Security Consultant – IBM   *May 2022 – Present | India*

- Worked on SAP ERP, GRC Dashboard, Hana Studio, SAP Business Planning and Consolidation Software, SAP S/4 Cloud, and SAP Net Weaver for Shell Pvt. Ltd.
- Extensively used SU53, ST01, and SUIM to assign missing authorizations to users, and even extensively used the RSRT t-codes to find missing BI reports authorization.
- Managing user login parameters and password parameters for Risk and Compliance.
- User master record creation/modification using SU01, including complex design restrictions.
- Mass user creation using SU10 and a custom t-code to reduce the turnaround time for user access.
- Created QTP scripts with UiPath for mass creation and change of users and roles during system clean-ups, mass role generation, user assignments, and others as required for the team, which saved the business around 200+ hours and 200K+ USD savings.
- Role creation/modification using Profile Generator (PFCG) including complex design restrictions.
- Ensured accuracy and segregation of duties through comprehensive testing of all profiles and authorizations.
- Expertise in resolving authorization issues by analyzing authorization checks.
- Troubleshooting user access through authorization error analysis (SU53, SU56) and System Trace (ST01).
- Collaborated with Functional, BASIS, and Network teams to troubleshoot complex access problems. Even collaborated with the SAP OSS Team for the SAP Bug fixes.
- Monitored and maintained user ID through User Information System (SUIM) – created monthly audit reports.
- Worked extensively with SE01, SE09, and SE10 in managing mass transport.
- Assisted with audit logs using SM18, SM19, and SM20.
- Proficient with tables USR, AGR, and USH.
- Used ServiceNow and in-house webforms for ticket management.
- Created multiple automations on the SAP system using UiPath and Power Automate to save productive hours for the business and support users for around 50+ hours.
- Developed a custom program using SE38 & UiPath for auto-lock and delete users in the system, which converted one of the SOX Critical controls from manual to fully automated.
- Participated in various maintenance activities & project onboarding and implemented SAP notes.
- Developed a custom program using SE38 for auto-lock and delete users in the system.
- Relevant Certifications:
- - SAP Certified Associate - SAP S/4HANA System Administration (September 2022)
- - SAP Certified Associate - Security Administrator (August 2025)

Full Stack Flutter Developer – Beedev Pvt Ltd   *Jul 2021 – May 2022 | Mumbai*

- Developed Pool Inspection Apps for end-to-end inspection workflow, including booking, standard selection, on-site inspection, report generation, and automated tax invoicing. Created the Automover app, enabling registered surveyors to record car survey reports with damage marking, digital signatures, image attachments, and offline submission capability.

Flutter Developer Intern – Logicwind Pvt Ltd   *Jan 2021 – Jul 2021 | Surat*

- Implemented whiteboard digitization using an ML algorithm to capture teacher handwriting, send images to a server, and display live transcription on a web platform, handling occlusions gracefully. Developed a sneaker e-commerce app leveraging an open-source REST API for sneaker data.

Flutter Developer Intern – Delta Apps Pvt Ltd   *Aug 2020 – Sep 2020 | Varanasi*

- Designed front-end for Help Now 24/7 app, enabling users to locate nearby ambulances, track ETA, cancel requests, and redirect patients to alternate hospitals.

EDUCATION AND ACADEMIC ACHIEVEMENTS

B.E. in Computer Science and Engineering | CGPIT, Uka Tarsadia University | CGPA: 9.45/10.00 | July 2021
Class XII | T&TV High School, Gujarat | 73% | July 2017
Class X | St. Xavier's High School, Gujarat | 78% | July 2015

POSITIONS OF RESPONSIBILITY

NSS member – CGPIT   *Bardoli*
- Participated in the clean village initiative, Bardoli with 74 participants (2018).

Event Manager – CGPIT   *Bardoli*
- Managed Counter-Strike 2019 in UTU-Tech fest with 100+ participants (2019).

Senior Coordinator – CGPIT   *Bardoli*
- Senior Coordinator for national level hackathon hackinUTU with 6000+ participants (2020).
